- **Frontend:** .Net MAUI, HTML, CSS, Angular, React, Next.js, Tailwind, ASP.Net, .Net MVC
- **Backend:** Firebase, Google Cloud, Azure, ASP.Net, SQL Server
- **Research:** Serious Games, User Tracing/Modeling/Adaptation, HCI, Deep/Reinforcement Learning, Multi-Agent System, Game Theory, Operational Research, Decision
- **Languages:** Chinese (native), English (fluent), French (fluent), Spanish (limited), Japanese (limited)
- **Art:** Digital & Analog Photography, Video Montage, Singing, Songwriting, Music Production

Experience

Freelance App Developer

Arborus

Ongoing

#C# #MAUI #iOS #Android

Development of RespectMe, an app that fights sexism and LGBTQ+phobias with comebacks.

Deep Generative AI Internship

2023

Tokyo National Institute of Informatics

#Python #PyTorch #DeepLearning

Creation of a new dataset of audio-text-motion using existing models for 3D pose estimation, and implementation of a *Transformer VAE* baseline model for proofing validity.

Serious Game Development Internship

2022

LIP6, Sorbonne University

#Unity #C# #SeriousGame

- Solo developer of on the prototype targeted for PC and Android, developed by previous team of students
- Significantly improved stability and optimization by using Coroutine, async for asynchronous execution, as well as basic Jobs System and DOTs for multi-threading
- Added a visual novel interface with loadable conversation tree and a custom 2D *A* pathfinding* system

Projects

Web & App Development

#Web #JavaScript #React #Next.js #Angular #C# #MAUI #iOS #Android
#ASP.Net #Azure #Google Cloud #Web API

カイセキ
(KaiSeki)

An app that analyzes Japanese sentences

Reproduction of the website gout-cha.com (with consent from the owner) with a backend database on Azure.

GoutCha

A memorial website for astrophysicist Hubert Reeves

Forêt Hubert Reeves

Portfolio website for an artist made with Next.js

li-shu-meng.github.io

Game Development

#Unity #HCI #P_recognizer #ECS #CbkST #BKT #xAPI

追忆(Zhuiyi) - In Search of Lost Words: A serious game that teaches to write Chinese characters

SPY: Enhancement of a game that teaches programming

PastelDices: A game jam project, to be published soon

..... (cf. Portfolio)

Research

#TensorFlow #DeepLearning #LSTM #A2C #Multi-Agent #HCI #JS

Meta-RL Project: Reproduction and analysis of the paper *Prefrontal Cortex as a Meta-Reinforcement Learning System*

Multi-Agent Simulation: Simulation of a fictional society

Gestures vs. Keyboard: Data collection and comparison between gestural and keyboard shortcuts under HCI protocols

..... (cf. Portfolio)
